Other matters:

- Southeast Pumping Station tender – ready for tender. However, Hydro One easement for their infrastructure is still under debate. Anticipate tendering the project in fall 2024.
- Scott Street Drainage and Construction Project – pending results of application to Housing Enabling Core Servicing Stream. Delayed until funding can be finalized, either through grant or from developers. Thomasfield is on board but having difficulty communicating with owners of 20 Scott Street.
- Bielby-Emma Sewage Trunk – camera work completed to evaluate current state of infrastructure for use in planning expansion for growth north of Scott Street/Luther Road. Engineers reviewing and starting plans for this infrastructure project.
- Ritchie Drive Drainage – Easement agreement and engineering plans have been sent to condo property management for review by their legal. Still no response at time of writing, unfortunately. Will be delayed until 2025 as a result.

Recommendation:

THAT Council receive Report – Monthly Procurement Update for information.
