Hey Abby

Thank you for your comments.

While I can appreciate and understand the significance of the Grand River to the Mississaugas of the Credit First Nation (MCFN), this is a minor application to expand an existing home.

If this home was not in the floodway (they have received a permit from the Grand River Conservation Authority) and not zoned Environmental Protection (EP) it would simply need a Building Permit not a Zoning Application.

Is an Archaeological Study really necessary, the site has already been disturbed?

Regards,

Good Afternoon Mark,

MCFN DOCA usually doesn't comment on residential expansions, but with the Grand River being so close by, MCFN DOCA has provided attached comments.

Thank you
