

**GRAND VALLEY**

## **Town of Grand Valley Capital Budget 2024**

### **Drinking Water System**

**Total Capital Budget Levy Request = \$0.00**

#### 2024 Project

- Water Tower Restoration work, which included full relining of tank interior, resealing roof plate seams, repainting the access tube, aircraft warning light replacement, and reinforcement of roof stiffener strength
- Project cost estimate at \$925,000.00
- Completed by year end 2024

#### 2025 Project

- Water Tower Generator
  - o The Town's water tower provides drinking water when the wells cannot keep up with demand; however, it also provides significant water to deal with fire emergencies or other situations requiring large volumes of water. To ensure that it is functioning at all times, a generator has been recommended for many years. Council approved this project, along with an application for funding through the County of Dufferin's Municipal Emergency Readiness Fund. This application was successful.

#### Funding Sources

- Municipal Emergency Readiness Fund (MERF) from County of Dufferin - \$12,500
- Water System User fees - \$47,500
