

GRAND VALLEY

Town of Grand Valley Operating Budget 2025

23 Mill Street property

Council has asked for information on the state of the property. This investigation and future testing required in 2025 is included in the budget (\$10,000).

Given all of the other competing priorities, the Town does not appear to have funds available to support any other works on the site, except staff time in discussing options and presenting suggestions for future use of the land. No other funds have been included in the budget.
