

GRAND VALLEY

Town of Grand Valley Operating Budget 2025

Gravel Road

2025 Approved Capital Projects

- \$425,000 for the purchase, trucking and application of gravel to continue the Town's gravel road rebuilding process

Operating Budget request

- The East-West Luther Townline requires gravel. As has been the case for many years, the Town pays for the gravel, and Wellington North Township staff arrange for trucking, application and grading. \$70,000 is added to the budget for our share of this project.

Second Draft:

- Per council direct, the additional \$70,000 was removed. Townline contribution to come from capital allocation.
