## **Report**

### **Background**

The Town operated its own landfill site on Sideroad 21-22 until 2005. The landfill site was then closed. However, the Town has an ongoing responsibility for monitoring the site for groundwater and surface water contamination.

### **Discussion**

The 2024 East Luther Landfill Annual Monitoring prepared by the Town's engineers, RJ Burnside and Associates Ltd in accordance with the closing plan for the site, has been provided as attachment 1.

A request to reduce monitoring requirements is currently before the Ministry of the Environment; however, until a response is provided, monitoring must continue in the manner as has been completed for the past twenty years.

### **Financial Impact**

None

### **Consultations**
