

GRAND VALLEY

MEMO TO COUNCIL

To: Mayor Soloman and Members of Council
From: Meghan Townsend, CAO/Clerk
Meeting Date: 2025-08-12
Subject: Update – Wastewater Flows

Purpose

To provide the requested update on wastewater flow infiltration and efforts to reduce these flows.

Background

Each meeting, Council has asked for an update on efforts to reduce the amount of water flowing into the wastewater system from leaks or other problems in the system. This update covers the period from July 21 to August 8, 2025.

Discussion

Initial repair work has been conducted to address leaks in the system along Emma Street. After this work was completed, the following change in average daily flow into the wastewater treatment plant was observed:

- May 1-July 21 average flow = 1,110 m³/day
- July 21 to August 8 average flow = 768 m³/day

Additional work on the laterals along Emma Street and work on Ponsford Street is underway. Data analysis will reoccur after this work is finished.

Financial Impact

Costs for the Emma Street work is covered by the developer. Monitoring and the Ponsford work is being paid for by the Town.
