Attention: Mayor and Council

Dear Sirs:

RE: RFT2026-001 Gravel Tender

Due to the excessive increase in fuel costs which is out of our control and seems to be going higher everyday, we are asking for a \$0.20/mt fuel surcharge for the upcoming gravel contract. When we bid the job back on February 17, 2026 the Petro Canada Rack price was at \$1.120/litre. This morning the Petro Canada Rack price is at \$1.869/litre which is a 66% increase, but in the last week it has fluctuated as high as \$1.902/litre. Accordingly, in order to ensure we are able to cover day-to-day expenses with respect to this contract, a \$0.20/mt increase would certainly help.

If the price of fuel returns to below \$1.50/litre at the time the job is completed, we will not add the fuel surcharge above.

Thanks for your consideration.

Yours truly,

DALTON R. LOWE & SONS CONSTRUCTION LTD.

Tammy Lowe
Secretary-Treasurer
